TECHNICAL SKILLS

Languages:	JavaScript (ES6+), HTML5, CSS3
Frontend Web:	React.js, Redux Toolkit, Context API, Tailwind CSS, Responsive Web Design
Backend & API:	Node.js, Express.js, REST API Development, JWT Authentication, Postman, Redis, bullMQ
Databases:	MongoDB, Mongoose ORM, Redis, BullMQ
Tools & Platforms:	Git, GitHub, VS Code, Docker (Basic), Netlify, Vercel
Core Frameworks:	Full-Stack Architecture, Asynchronous Programming, CRUD Operations, State Management, Message Queues

TECHNICAL PROJECTS

MyTube – YouTube Clone Platform (Ongoing Project) Live Project

- Engineered a highly responsive **React.js web application** integrated with asynchronous video browsing, dynamic search operations, and instant category filters.
- Architected modular, **component-based layouts** to maximize codebase reusability and optimize cross-browser compatibility across mobile and desktop viewports.
- Implemented streamlined state management practices to improve frontend render metrics and code maintainability.

Professional Developer Portfolio Live Deployment

- Designed and deployed a clean frontend developer portfolio highlighting interactive **REST API integrations** and custom UI development projects.
- Applied **Tailwind CSS mobile-first styling** to optimize user experience, performance scores, and layout fluidness.

PROJECT EXPERIENCE

Independent Full Stack Developer / Web Engineering Ongoing

- Programmed and successfully deployed production-ready single page applications (SPAs) utilizing modern **JavaScript (ES6+)** architecture.
- Connected backend REST APIs and managed asynchronous application states to ensure fluid, high-performance visual interfaces.
- Leveraged version control systems like **Git and GitHub** for code versioning, branch management, and repository maintenance.
- Configured and managed secure cloud hosting deployments via automated continuous integration systems on **Netlify** and **Vercel**.

EDUCATION

Bachelor of Computer Applications (BCA) Expected Graduation: 2027

Awadhesh Pratap Singh University (APSU) — Rewa, India (Currently in 2nd Year)

- Core Coursework: Object-Oriented Programming (OOPs), Database Management Systems (DBMS), Web Technologies, Software Engineering.
